First-Year Mentoring

**SUMMER E-MAILS**

**DURING THE SUMMER**
You will have a Peer Mentor assigned to help you with any questions you may have before starting at BYU.

**BEFORE SCHOOL STARTS**
You will receive an introductory e-mail and a phone call from your Fall Peer Mentor, providing information about themselves, and asking you to tell them about yourself.

Be sure your e-mail address in myBYU Personal Information is updated and correct.

**MENTORED COURSES**

**DURING YOUR FIRST YEAR**
You are expected to fulfill your First-Year Writing and American Heritage General Education requirements. The First-Year Mentoring Program holds seats in these and other high-demand GE classes for new students.

We’ll tell you how to register for mentored courses during the [JUMPSTART](#) program (don’t forget to sign up) or you can find more information about mentored courses [here](#).

**INDIVIDUAL MEETINGS**

**EARLY IN THE SEMESTER**
Your peer mentor will contact you to set up a meeting to get to know you better and discuss how they can help you. Along with these meetings during the school year, your mentor will e-mail important information to you. For example: upcoming deadlines, practical tips, and campus happenings. Let your mentor help you!

**WHAT’S A MENTOR?**

**WHY IS A MENTOR RIGHT FOR YOU?**
Each new student is given a First-Year Mentor, to help you transition and make the most of your experience at BYU.

**NEW STUDENT ORIENTATION**

**WANT EVEN MORE HELP?**

New Student Orientation (NSO) takes place a few days before the start of classes. You will be able to meet your mentor and other students in your mentored course.

During NSO you will take a tour of campus, attend orientation meetings about majors that interest you, learn about helpful campus resources, and of course have fun meeting new friends!
